

ILUGBARO OLAOLUWA OLUSOLA

Frontend Developer | Computer Science Student

olaoluwaolusola1206@gmail.com • +234 7048 782 107 • Ibadan, Nigeria

PROFESSIONAL SUMMARY

400-level Computer Science student at the University of Ibadan with hands-on experience building responsive, production-ready web applications in React.js and JavaScript. Currently exploring backend concepts through Node.js, with an interest in understanding how fullstack systems come together.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, JavaScript (ES6+), React.js, Vite, Tailwind CSS, Responsive Design

Currently Learning: Node.js basics, REST API concepts

Tools: Git, GitHub, npm

QA: Manual Testing, Bug Reporting, UI/UX Testing

SELECTED PROJECTS

Scoot — Multi-Page Frontend

2026

Responsive multi-page React + Tailwind CSS app translating Figma designs to a polished web interface. Focused on advanced responsive layouts, dynamic SVG asset positioning, and reusable component architecture.

↗ github.com/MEPHiSTO126/Scoot

Chronos URL Shortener

2026

Single-page React/Vite URL shortener with a dark cyber aesthetic, featuring shake-on-error animations, copy-to-clipboard feedback, and a frontend interface structured to connect to a backend API when ready.

↗ github.com/MEPHiSTO126/URLshortener

HLR Network Simulator

2026

GSM network simulation platform built for the Airtel SIWES project. Features a dark NOC-style React/Vite dashboard with GSM challenge-response authentication and CDR billing logic, developed with guidance from the internship team.

↗ github.com/MEPHiSTO126/HLR-Network-Simulator

Dynamic Weather Dashboard

2026

Responsive weather app consuming the OpenWeatherMap REST API with async/await data fetching, dynamic DOM updates, and a clean CSS Grid/Flexbox layout across all screen sizes.

↗ github.com/MEPHiSTO126/Weather

WORK EXPERIENCE

IT Intern (SIWES) | Huawei / Airtel Nigeria

Jan 2026 – Apr 2026

- Completed a 3-month industrial training program focused on GSM network infrastructure and enterprise IT operations.
- Built and presented a full network simulation project demonstrating GSM authentication concepts.

IT Intern (SIWES) | SQI College of ICT

2025

- Assisted with network troubleshooting, software updates, and end-user support for community center systems.

EDUCATION

B.Sc. Computer Science (Ongoing)

Ibadan, Nigeria

University of Ibadan | 400 Level
